

DRESSLER'S FARM CSA! — Contract

Our season runs about 20 weeks, (depending on the weather). You will receive a bounty of fresh, great tasting produce. You can expect the boxes to contain a balanced selection of about 6-8 items each week valued around \$20 to \$24. We try to offer the popular crops most weeks when they're in season, and give you a chance to sample more unusual crops throughout the season. We specialize in quality vegetables and flavor that you normally won't find in a store. It is about an eating adventure.

Let us know if there is a particular item you know you do not want or one you really love. Our focus is on quality and customer service. We are glad to offer cooking tips. We want your family to enjoy access to great tasting local produce.

Weekly Share cost \$390 for the season and pick up every week June - October

Biweekly Share cost \$200 for the season and pick up every OTHER week June - October
